FULL STACK SOFTWARE ENGINEER

Proud software engineer graduate of a certification program that has strengthened a passion for creating accessible web applications. Thrive when challenged to build solutions in a team learning environment.

Without the mentorship of others I wouldn't be where I am, through growth in my skills I want to be able to pay it forward in future mentorship.

TECHNICAL SKILLS

Ruby, Rails, Git, Node, JavaScript(ES6+), React, Redux, CSS, HTML5, Styled Components, Bootstrap, SQLite, APIs, Postgres

TECHNICAL PROJECTS

Big U - Github | Demo
Web application for parents, adults and children with Autism, to create and log experiences as well as personal resources.
- Developed program using JSON data from a Ruby on Rails API to correspond to the React frontend
- Utilized backend authentication to store client-side encrypted input to prevent unauthorized access to sensitive data
- Implemented Redux to manage application state to keep changes more predictable and traceable
- Designed with Styled Components CSS to separate styling concerns for a DRY code structure

Hana - Github | Demo
Ruby on Rails Project management web application to create projects and daily tasks for a simplified workflow
- Applied full CRUD capabilities to implement persistent storage to comply with a RESTful routing
- Implemented Google Omniauth for 3rd party authentication to implement options for user registration
- Utilize scope methods in models for ActiveRecord queries to build a client friendly search feature creating

Vinylogger - Github | Demo
Record collection web application for storing vinyl online and logging favorites
- Implemented corneal to scaffold Rails MVC implementing a client friendly data flow
- Utilized BCRYPT to store client passwords as encrypted data in a SQLite database

PROFESSIONAL EXPERIENCE

True Barber Co, LLC   Denver, CO   2012 - Present
Barbershop and Shave Parlor
Master Barber
Utilized proper time management for prime efficiency corresponding to the clients scheduled time slot

EDUCATION

Flatiron School   Online   2021
Certification - *Full Stack Software Engineering, Ruby on Rails and JavaScript program*

Tri-City Barber College   Louisville, KY   2012
Graduate Certificate - *Barbering*
